

RW Elast®

SBS and bitumen granules for asphalt mixes

- For a strongest and greater **LONGEVITY OF ROADS /**

- Outstanding resistance to **rutting** and **thermal cracking**
- Strong **elasticity**
- Excellent **resistance to fatigue**
- Very good **preservation of macrotexture** for surfaces courses
- Strong **cohesion**
- **Reduced thickness** of roads

- **EASY use /**

- **Easy transport and storage** in big bag or hotmelt bag
- **Direct introduction** into the pugmill of asphalt plant
- **Dosage** according to the performance required
- For all **bitumen grades** including recycled asphalt mix aggregates
- For all types of layers and mixes

- Highways
- Urban roads
- Airport
- Parking – high load bearing areas
- Roundabouts
- Dual-carriageways
- Industrial areas
- Airplane parkings
- Bus lanes
- Bridges
